JUL - 6 2016

Dear Grand Canyon National Park Commercial Use Authorization Holder:

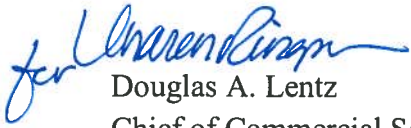

Grand Canyon National Park is implementing **new** parking procedures for Transportation Commercial Use Authorization (CUA) holders operating on the North Rim beginning July 15, 2016, as follows:

- **Commercial buses (32 feet and greater).** Commercial buses (32 feet and greater) are now required to park in a temporary parking area approximately $\frac{3}{4}$ of a mile north of the North Rim Visitor Center, as shown on the attached map. Locate the Employee Dining Room on the attached map. Directly across the street from that is a bench where you can take a shuttle back to the lodge. Likewise, there is a shuttle from the lodge back to the Employee Dining Room to get you back to your bus. Additionally, buses are prohibited from idling while parked, driving into the campground, or parking/waiting at the campground kiosk parking lot.
- **Commercial buses (less than 32 feet).** Small commercial buses (less than 32 feet) and vans are now required to park in the upper north lot at all times.
- **No Parking.** Commercial parking will no longer be permitted in front of the Visitor Center and cabins. There are spaces at this location for loading and unloading only. Please ensure that drivers have coordinated an exact pick-up time with passengers, as hand held radios and cell phones often do not work between this drop off location and where the commercial buses will be parked. Parking and idling are both prohibited in this location except to unload and load.

This is a new policy and we appreciate your assistance in its implementation. The National Park Service also appreciates the services CUA holders provide to the visitors of Grand Canyon National Park. If you have any questions, please contact the Commercial Services office at 928-638-7707. Thank you for your cooperation and understanding of these new parking procedures.

Sincerely,

A handwritten signature in blue ink, appearing to read "Douglas A. Lentz", with a stylized flourish at the end.

Douglas A. Lentz

Grand Canyon National Park

North Rim Bus Parking

Parking Directions

Bus tours may load and unload along the access road in front of Grand Canyon Lodge. No idling or parking permitted.

For parking, proceed north 0.9 miles (1.5 km) from Grand Canyon Lodge. Turn left on Norton and follow the road to the bus parking at the circle. Pick up the shuttle on the front (west) side of the employee dining room (EDR).

Do not drive into the campground. Do not park at the campground kiosk.
